DWA_08 Discussion Questions

In this module you will continue with your "Book Connect" codebase, and further iterate on your abstractions. You will be required to create an encapsulated abstraction of the book preview by means of a single factory function. If you are up for it you can also encapsulate other aspects of the app into their own abstractions.

To prepare for your session with your coach, please answer the following questions. Then download this document as a PDF and include it in the repository with your code.

_____

1. What parts of encapsulating your logic were easy?
   - Create a separate module or class for handling the creation and manipulation of DOM elements.
   - Encapsulate the code related to genre and author elements creation and appending.
   - Create a separate module or class for handling the theme-related functionality.

_____

2. What parts of encapsulating your logic were hard?
   - Create a separate module or class for handling the list-related functionality.

_____

3. Is abstracting the book preview a good or bad idea? Why?
   - Its a good idea, as it make my quote neat, readable and shorter

_____
